

Services for Children with Autism Performance Measures

1. Costs for the provision of services for children with autism participating in the Medicaid, PEHP, and Autism Treatment Account programs will be tracked and reported on an annual basis to the Social Services Appropriations Subcommittee.
2. All children with autism participating in the state-funded programs will be evaluated using a standardized assessment instrument on an annual basis. The aggregated results of the assessments will be tracked and reported on an annual basis to the Social Services Appropriations Subcommittee.
3. Parents or guardians of children with autism participating in the state-funded programs will be surveyed annually to examine their satisfaction with the services and their evaluation of the effectiveness of the services provided. Parents will be asked to provide information about the effectiveness of the training and support that they receive to assist with the delivery of the services. The results of the survey will be reported on annual basis to the Social Services Appropriations Subcommittee.
